

SIREN DETECTOR

DSSE

DSSE

Siren detector for emergency vehicles that allows access to fire-fighters, ambulances, police vehicles...

The siren detector is able to identify the signal emitted by approved sirens of public administration/emergency vehicles (police, firefighters, ambulances, etc....).

In the event of an emergency, the siren detector will identify the siren signal and proceed to lower the automatic bollard shaft to ground level or to raise the automatic barrier, in order to allow vehicles passage.

Ado urban furniture, SL. reserves the right to modify product specifications without prior notice.
