info@adourbanfurniture.com

THE COMPANY

Ado is a Spanish company with more than 47 years of experience, specialized in the manufacture and installation of urban furniture, fences, iron or stainless-steel hardware products, road signs, industrial protection equipment, automations, automatic bollards, doors, canopies, glass, aluminum...

Ado SA was founded in 1975 in the field of locksmithing. Nowadays, it is one of the companies in the sector with the widest variety of products in street furniture, road signs, automations, aluminum, locksmiths... Thus, it is one of the companies that offers the greatest variety of products and services to the customer on the market.

Our entry into the market of street furniture is due to the growing demand from our customers (municipal administrations, construction companies, designers, etc.) who are looking for street furniture that differs from the ones currently on the market and the ones from Eastern markets in terms of superior quality and innovative design.

It is now one of the leading manufacturers of customised and designer street furniture.

CUSTOMER SERVICE

Our goal is to provide our customers with better products and services daily and to ensure quick response and service. For these reasons we take into account the opinion of our customers, as they help us to offer better products.

Our commitment is to offer our customers the best services and products.

Therefore, we value and take into account the opinions of our customers, as no one can explain better than them what changes or improvements the products might need.

In this way, we improve, modify or manufacture special products tailored to the needs and expectations of our customers.

The customer is our priority in every market

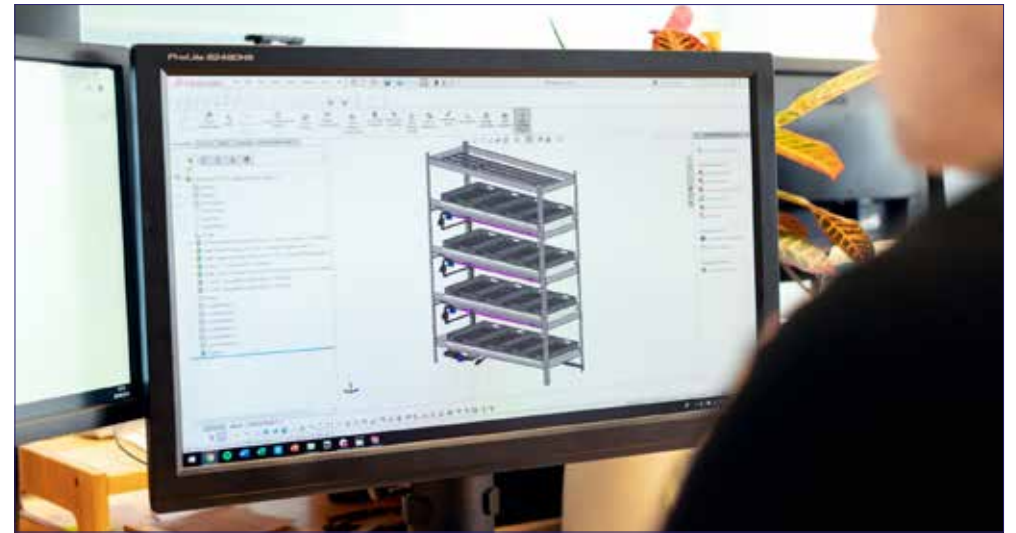

DESIGN

Our Design department has highly qualified staff, both academically and professionally, adapting to the trends and needs of the most demanding markets.

As manufacturers, our R&D department is constantly researching, recycling and contributing with its knowledge to improve our products. Examples of this are our fountains for people with disabilities, luminous danger warning bollards, children's fences, anti-vandalism metal benches, etc.

As designers of our own products, we put emphasis on design, quality, and durability, as well as on production costs and delivery times, resulting in high quality design products at affordable prices.

Our young and dynamic company structure allows us to take an idea and turn it into a quality product at an affordable price, manufactured nationally.

We manufacture all types of street furniture tailored to our customers around the world who are looking for customized products with special designs or standardized models that are more common in their country of origin .

MANUFACTURE

Our goal as manufacturers is to offer a final product of excellent quality and price that allows us to compete with the entry of low-quality products.

The manufacturing is made with raw materials from Spain and the European Union, ensuring the highest quality standards.

Self-production allows us to offer a wide variety of standard products that we can adjust to the needs of our customers or create the unique product you desire with its own unique features.

We control the production process from the start to the end, from design to manufacturing, also offering after-sale services.

The improvement of quality, as well as an exhaustive control of our products and our production processes together with our quality standards, cost control and reduction in the execution and delivery time of the products, position us as a reference supplier.

MACHINERY

We have a wide range of machinery for our production.

- Press brakes.
- Welding machines.
- Presses.
- Cutting machines.
- Plasma machines.

INTERNACIONALIZATION

As a leading company in the sector, we made our way to international markets, adapting our products to each country and to the evolution of its cities according to the needs of its customers.
