

A-Blen TT ø 80 flexible polyurethane bollard screwable to the ground. Easy installation by means of a single bolt screwable to the ground.

Flexible bollard designed for road marking, ideal for streets, bike lanes and car parks. After impacts, this sturdy bollard returns to its original shape and position.

SCREWABLE A-BLEN TT 80 MODELS:

Black Ref. **PBLENTT80N**
Green Ref. **PBLENTT80V**

Hook spanner for screwing A-Blen TT ø 80.
Ref. **LLBLENT80**

A-BLEN TT BOLLARDS FEATURES:

-  After impacts, they return to their original shape and position.
-  100 % recyclable.
-  Not painted. They do not rust. They do not need maintenance.
-  Excellent impact resistance and flexibility within a wide temperature range.
-  High resistance to oils, greases and several solvents.
-  High abrasion resistance.
-  Pleasant touch.
-  Aesthetically identical to metal bollards.
-  Triple milling and Level 2 reflective tape that improves the visibility of the bollard.

EASY INSTALLATION:

1- Make a hole on the ground to fix the anchor.

2- Clean up and fill the hole with epoxy resin.

3- Insert the anchor and wait as it gets dry.

4- Screw the bollard manually.

5- Help yourself with the optional hook spanner during the last stage.

The properties of this material allow the bollard to return to its original shape and position in the event of impact. It cannot be torn, dented or corroded.
