

A-Blen polyurethane flexible screw bollard to be screwed on the floor. They return to their original shape and position after an impact, making them practically indestructible.

A-Blen screw bollard, with a central screw. Easy to install as it contains only one screw that has to be tapped on the floor. It has the same features as A-Blen bollard.

MODELS A-BLEN 100 SCREW:

Black	Ref. PBLENN
Green	Ref. PBLENV
Red	Ref. PBLENR

Fixing key for to screw A-Blen ø 100 bollard.

Ref. LLBLENT

EASY INSTALLATION:

1- Make a hole in the ground in order to place the anchorage.

2- Clean the hole once it is done and fill it with Epoxi resin.

3- Introduce the anchorage in the hole and wait until it gets dry.

4- Screw the bollard manually.

5- Finish screwing the bollard with the help of the optional key.

A-BLEN BOLLARDS ADVANTAGES:

-  Memory bollard; in case of impact, it returns to its original shape and position.
-  100 % recyclable.
-  Not painted. No rust. Maintenance-free.
-  Excellent impact resistance and flexibility on a wide range of temperatures.
-  High resistance to many solvents, oils and greases.
-  High resistance to abrasion.
-  Pleasant to touch.
-  Aesthetically identical to metal bollards.
-  Level 2 reflective tape, improving the visibility of the bollard.

The properties of this material allow that in case of impact, the bollard comes back to its original shape and position. They don't break, they don't get dented and they don't oxidize.
