

A-flex luminous flexible bollard with LEDs in the upper part of low 12v consumption, A-FLEX flexible bollards are made of polyurethane plastic, after receiving an impact they return to their original shape and position, overcoming a bending of 2000 cycles at 90° without no cracks or deformations appear. Being a practically indestructible bollard. Floor installation by embedment.

Bollard that offers great lighting on public roads with very low electrical cost.

Bollard ideal for lighting paths, pedestrian areas, gardens, entrances, parks, ...

STANDARD FINISHES:

- Black + white leds Ref. PFLEXHNLB
- Black + red leds Ref. PFLEXHNLR

OPTIONAL:

- Double reflective strip.
- Other colors to consult.
- Possibility of choosing different colors of RGB LEDs as well as patterns and operating sequences.

Low consumption led 12v.

A-FLEX BOLLARDS ADVANTAGES:

-  Virtually unbreakable.
-  100 % recyclable.
-  Not painted. No rust. Maintenance-free.
-  Memory bollard; in case of impact, it returns to its original shape and position.
-  High resistance to many solvents, oils and greases.
-  Excellent impact resistance and flexibility on a wide range of temperatures.
-  High resistance to abrasion.
-  Pleasant to touch.
-  Aesthetically identical to metal bollards.
