

# BIKE LOCKER BLOCK

**Locker to store folding bicycles and scooters.**

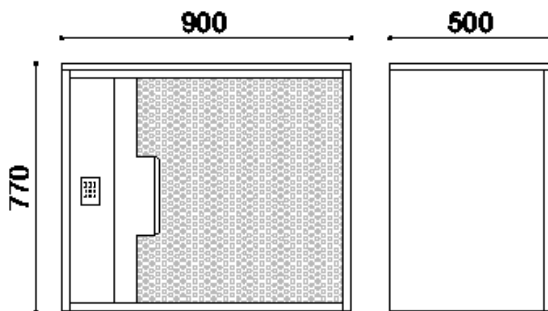

Modular Block lockers that can be screwed together or fixed to the wall.

Standardized locker measurements for most 16 or 20-inch wheel folding bikes (Brnton, Decathlon, Dahon, ...) or folding scooters (Xiaomi, Cecotec, Razor, ...).

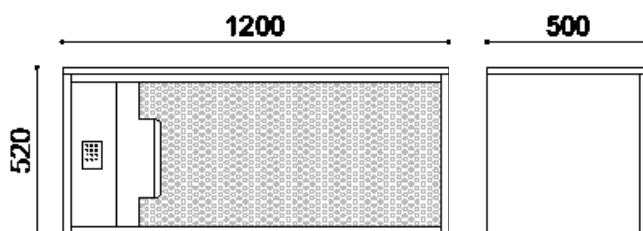

In the central part of the locker there is a digital electronic password coded-lock with a touch screen opening-closing technology by means of a numerical combination to avoid carrying a key and padlock and low battery indicator.

TAQBLOCK01

TAQBLOCK02

## MODELS:

Folding bicycle. - Ref. TAQBLOCK01

Folding scooter. - Ref. TAQBLOCK02

The user selects the desired coding for a single use (4 digits), allowing the bicycle or scooter to be parked without the use of chains or padlocks; and once the parking time has ended, the user enters their previous code to collect the bicycle or scooter.

Ideal lockers for offices, hotels, shopping centers, shops, town halls, gyms, private venues, ...
