

Ref. JBRAND04

Brand model planter with a circular design built from cylinder iron sheet, lower base of smaller cylinder plate, and laser-cut ring welded on the upper part, thus giving rigidity to the planter while avoiding possible damage from the upper edge and makes it difficult to extract the interior earth. Planter with rounded edges.

Ideal for outdoor use, in pedestrian streets, parks and gardens.

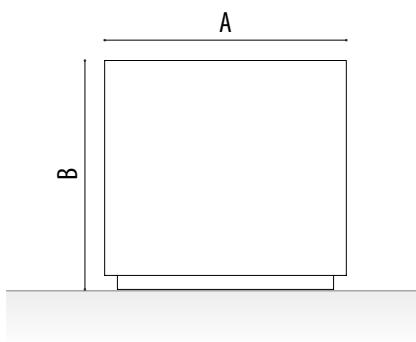

OPTIONAL:

- Lacquered in other colors, laminated finish or stainless steel.
- Bricat corten steel finish (catalyzed varnish).
- Personalization with logo engraving.
- Other measures to consult.

Possibility to adapt our planters to hydroplanters.
