

Ref. BUTTONN01

MEASURES:

Diameter: \varnothing 190 mm.
Height: 40 mm.
Weight: 520 g.

Button model rubber road separator in various colors, specially designed to separate lanes (bus, bicycles, ...). Thanks to these spacers, an effective distance is achieved between a lane and the adjacent lanes on a traffic flow path.

Easy installation with a single screw. It has a plug at the top to facilitate fixing to the ground.

STANDARD COLORS:

Black.....Ref. **BUTTONN01**
White.....Ref. **BUTTONB01**
Yellow.....Ref. **BUTTONAM01**
RedRef. **BUTTONR01**

FEATURES:

- Great robustness.
- Shock absorber.
- Composed of rubber with high resistance to abrasion, ozone and UV rays.
