

Rif. FCOR01

Rif. FCORG01

**Cor model urban fountain** built with Corten steel sheet with stainless steel tap clamping plate in the shape of a drop of water. Chrome-plated steel tap with push-button system included.

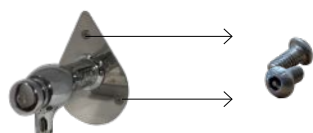

Its elegant design and combination of materials allows its installation in both modern and rustic places.

### STANDARD FINISHES:

Oxiron grey..... Rif. FCORG01  
Weathering steel..... Rif. FCOR01

### Advantages:

- Vandal-resistant security screws to prevent fountain accessories from being stolen (tap, tap fixing plate, etc.).

Vandal-resistant security screws.

- Finishes in oven lacquered zinc-plated steel for greater corrosion resistance.
- The tap and its fixing plate are interchangeable with the ones belonging to some of our fountain models (Gota, Square, Drop, Prisma Dogi, Puppy, Fox, Pug, Dingo, Cor), thus reducing maintenance stocks.
- Plate ground installation by means of metal screw threads.
- See different options for more possible advantages over our fountains.

### Optional:

- Front or rear opening for possible repairs. It can be customised in stainless steel with a logo or text decoration of the Municipality.

Opening in lacquered or stainless steel with customisation.

Vandal-resistant security screws.

- Customisation with logo or coat of arms of the Municipality.

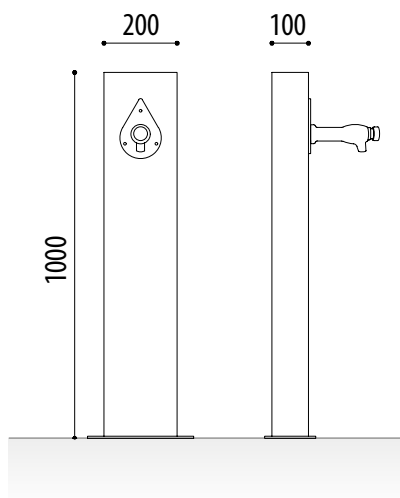

### SIZE:

Width: 200x100 mm

Visual / total height: 1000 mm

Base plate: 240x140 mm

### DRAIN GRATES (OPTIONAL):

Drain grates to choose among a wide variety, including models which are screwable to the ground with security screws (thus preventing their theft).
