

Ref. PMALLENC01

**Mallen urban litter bin**, constructed from highly resistant and robust weathering steel sheet, with support post and a lower plate for ground installation by means of metal screw threads. It includes weathering steel activation on the outer surface.

With this design we wanted to achieve a litter bin that keeps up with the aesthetics of other weathering steel decoration elements, which currently constitute a popular trend, resulting in a robust and aesthetic litter bin.

### STANDARD FINISHES:

Weathering steel. . . . . Ref. PMALLENC01

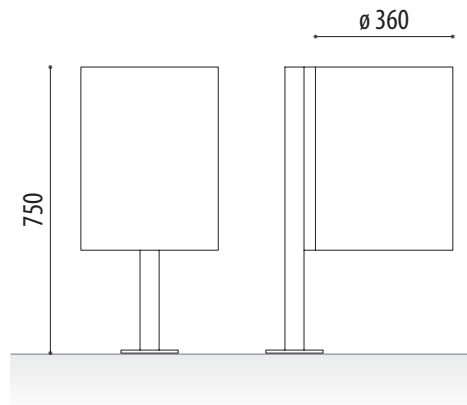

### OPTIONAL:

- Personalization logo decoration.
