

Recycled plastic

Ref. PITONRB01

MEASURES:

Width: 145 mm.
Height: 120 mm.
Length: 820 mm.

Piton model road separator made with recycled material in 1 single piece measuring 820x145x120 mm. Black color and paint with white reflective microsphere.

Its design offers great visibility and easy adaptation to all types of urban roads, thus allowing cyclists to circulate safely.

Made with various mixes of industrial and post-consumer waste, basically recycled plastic.

Its dimensions and shape allow installation in all types of curved paths.

OPTIONAL SCREWS:

Set of screws formed by threaded rod M-12 mm. zinc plated and nut.

For each Piton separator 3 units of hardware will be required.

Ref. PANTERATOR

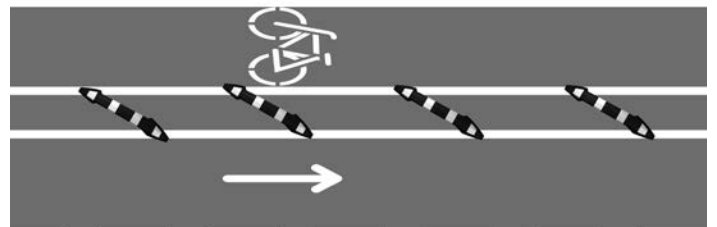

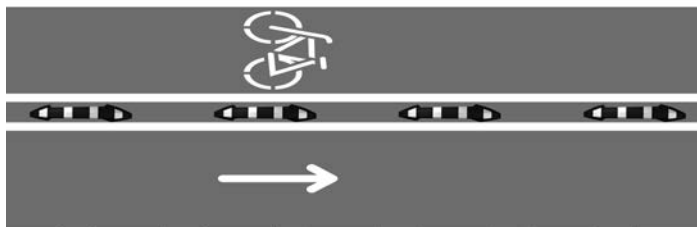

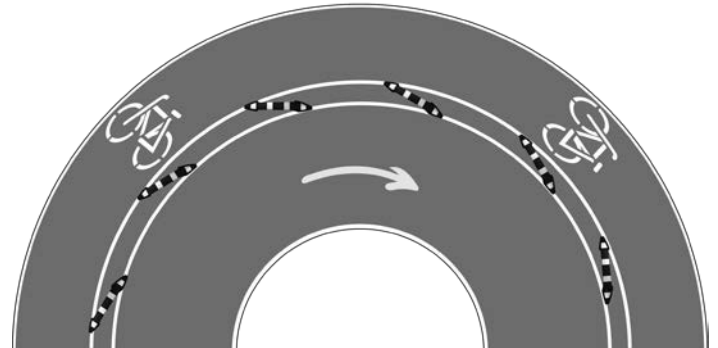

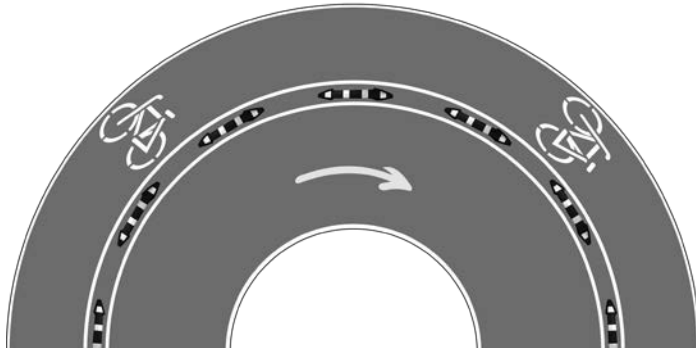

FEATURES:

- Possibility of installation in various positions.
- Reflective strips or vulcanized rubber (not reflective).
- Installation using 3 metal plugs.
- Great shock absorption.
- Exceptional weather resistance.
- Rounded shape design without sharp edges or edges.

INSTALLATION EXAMPLE:

FEATURES	NORM	VALUES
Elastic modulus	UNE-EN ISO 527-2527-2	12 MPa
Elongation at break	ISO 527-2527-2 / UNE 12803:2001	130%
Resistance to tear		20 kN / m.
Hardness	UNE ISO 868-98 / DUV	81
Abrasion Loss	UNE 135203	160 / 108 mm ³ /mg
Recyclability	Circular economy	100%
