

Road delimiter flexible post made of highly flexible polyurethane plastic. In case of impact the pole returns to its original position. Reflectorized post with three high visibility reflective tapes. In the upper part it has a 26 mm hole for fixing accessories. Bollard / post Ideal for delimiting roads, streets, private spaces, use in industrial spaces, etc.

For its permanent installation, you must previously make the holes in the area of the pre-marked base, fixing it to the ground using screws (not included).

It can also be used without being fixed to the ground (mobile, like a cone).

STANDARD COLOUR:

- Orange Ref. PFLEXI3RNA01
- Green Ref. PFLEXI3RV01
- Blue..... Ref. PFLEXI3RAZ01

RECOMMENDED SCREWS:

-For concrete:

Plug of \varnothing 11. - Ref. T11L

- For asphalt / panot:

Plug of \varnothing 10. - Ref. T10X135

MEASURES:

- Width: \varnothing 80mm.
- Height: 765mm.
- Base width: 200 mm.
- Weight: 1.2kg.
