

Swiper model trench cover ideal for covering holes and temporary trenches on construction sites.

Light but rigid product, since it is reinforced with fiberglass, which makes it possible to eliminate the use of the classic iron plates traditionally used to cover trenches, maintaining performance in the most demanding situations.

MODELS:

Yellow **Ref. SWIPER01**

FEATURES:

- Molded in a single reinforced fiberglass piece.
- Non-slip surface.
- Covers trenches up to 700 mm.
- Supports a weight of up to 500 Kg.
- Central section of reinforced fiberglass.
- Non-slip surface and beveled edges.
- Weighs less than a metal deck.

MEASURES:

Width: 800 mm.
 Height: 30 mm.
 Length: 1200 mm.
 Weight: 13 Kg.
