

Ref. TRACKM

MEASURES:

Height: 1048 mm.
Length: 1700 mm.

Track model iron manual road closure barrier, with removable base that allows, by means of a key on the base, to have the barrier in two positions: open or closed.

Two barriers can be installed, one in front of the work and have them in an open or closed position, or at different distances allowing the passage of people, bicycles, motorcycles, ... without the need to stop.

Ideal to delimit the passage of vehicles on rural roads, parks, pedestrian areas, ...

STANDARD COLORS:

- Brown Ref. TRACKM
- Green Ref. TRACKV
- Red Ref. TRACKR

OPTIONAL:

- Reflective tape.
