

Ref. PTRESTO01

**Tresto urban litter bin** constructed from highly resistant and robust weathering steel sheet, with rectangular post and rounded edges, flute-like cut edge, and a lower plate for ground installation by means of metal screw threads. It includes weathering steel activation on the outer surface.

With this design we wanted to achieve a litter bin that keeps up with the aesthetics of other weathering steel decoration elements, which currently constitute a popular trend, resulting in a robust and aesthetic litter bin.

#### STANDARD FINISHES:

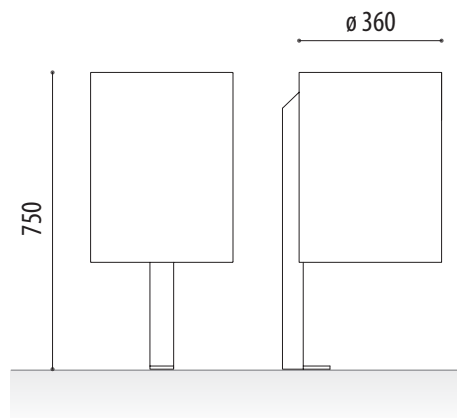

Weathering steel. . . . . Ref. PTRESTO01

#### OPTIONAL:

- Personalization with logo decoration.
- Stainless steel inner ring to hold garbage bags. Ref. AIP360
- In lacquered or stainless steel.
- Bricat finish (outer catalyzed varnish).
