

REMOVABLE BOLLARD

URBAN

Removable Urban model bollard, inspired by the removable City bollard, thus maintaining the aesthetics of the urban environment. Simple and cylindrical bollard made of galvanized iron, finished in oxirón or imitation corten. Top cap in stainless steel. Its design compatible with City bollards allows both models to be combined in the same environment.

Ground anchoring base for bollard housing with universal key lock on the top cover of the base.

Bollards built with internal and external anti-rust galvanized iron tube with anti-poster/sticker surface treatment.

STANDARD FINISHES:

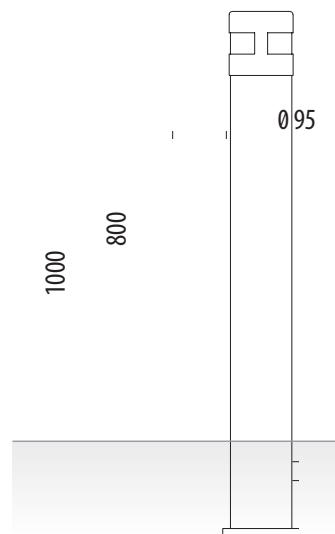

- Oxiron **Ref. PURBANE**
- Imitation corten **Ref. PURBANICE**

OPTIONAL:

- Plate for bollard \varnothing 90. **Ref. SUPP**
- Reflecting tape.
- Additional removable base.
- Ref. BEXTRA90**
- Other colors to consult.

MEASURES:

- Diameter: \varnothing 90 mm.
- Visible height: 800 mm.
- Total height: 1000 mm.
